

If you are interested in purchasing a car from Japan through DEIL-Loft Commerce, please follow the major steps outlined below:

**Step 1. Browse our stock list:** Visit our website (<https://applications.deil-loft.com>) or download our mobile app, Trade Show IoT (available on iOS and Google Play Store), to explore the available car options.

**Step 2. Send an inquiry:** Once you find a car that you like, send us an inquiry and provide your Consignee and Notify Party information, including your full name, address, and telephone number. We will then generate an invoice for the selected product. The invoice will include all payment details, purchase conditions, payment deadlines, and the designated bank account for payment.

**Step 3. Make the payment:** Take the invoice to your preferred bank and complete the payment as per the provided instructions. It is important to share a copy of the T/T (Telegraphic Transfer) within 3 to 5 working days from the issuance of the invoice to secure your purchase.

**Step 4. Receive Purchase Confirmation and shipping details:** After the payment is made, you will receive a Purchase Confirmation along with the necessary information regarding shipping and other relevant details related to your purchase.

**Step 5. Obtain shipping documents:** Once the car is shipped, you will receive the Bill of Lading (BL) and other standard documents necessary for the shipment.

**Step 6. Clear customs and receive your car:** Upon arrival at your designated port, you will need to clear customs by paying the appropriate customs clearance fees to your clearing agent, as well as any applicable duties and taxes to your government. The exact fees will depend on factors such as the car's model, year, engine size, and dimensions. For a more accurate estimation, it is recommended to contact a clearing agent in your country. Once the necessary payments are made, you can receive your purchased car. The time it takes to receive the car will vary based on the payment timing and your final destination.
